TW030WA03 / TW030WA04, 30mm neodymium dome tweeter w/o face plate

TW030WA03 and TW030WA04 are high performance 30mm soft dome tweeters that work equally well for most demanding high frequency audio applications. Both are delivered without face plate.

TW030WA03 is delivered without ferro fluid while TW030WA04 uses a light high-stability ferro fluid type.

The low resonance frequency and high power handling make TW030WA03/04 the ideal tweeter for 2-way speakers, where standard tweeters will not do.

The usage of dual neodymium magnets as power source ensures an almost perfect magnetic screening for demanding A/V applications.

The low distortion and the smooth and extended frequency response combine extreme details and dynamics into making TW030WA03/04 the pearl of any high-end 2-channel system.

Small size and high efficiency make TW030WA03/04 well suited for high quality multimedia applications.
